Patently Enabled September 2024 - How to Read a Patent

The purpose of this monthly series *Patently Enabled* is to share simplified patent-related information to assist non-patent practitioners in making the best decisions when considering their intellectual property rights.

In the September edition of *Patently Enabled*, George Chaclas and Anthony A. Kassas share how to read a patent, from the face of the patent to its claims.

For any patent-related comments, questions or other inquiries, please contact registered patent attorneys Emily Ferriter Russo or George Chaclas.
