March 1, 2024

Patently Enabled March 2024 – What is Double Patenting?

The purpose of this monthly series Patently Enabled is to share simplified patent related information to assist non-patent practitioners in making the best decisions when considering their intellectual property rights.

In the March edition of Patently Enabled, George Chaclas and Emily Ferriter Russo explore double patenting, how both administrative and judicial bodies may view such claims, and how the life of the patent(s) may be subsequently impacted. For any patent related comments, questions or other inquiries, please contact registered patent attorney Emily Ferriter Russo.
