Patently Enabled January 2024 – What is Obviousness?

The purpose of this monthly series Patently Enabled is to share simplified patent related information to assist non-patent practitioners in making the best decisions when considering their intellectual property rights.

To kick off the New Year, George Chaclas and Emily Ferriter Russo break down the “Obviousness Statute” in patent prosecution and how to overcome its limitations. For any patent related comments, questions or other inquiries, please contact registered patent attorneys Emily Ferriter Russo or George Chaclas.
