Project Finance Trends, Challenges, and Opportunities in 2021

Partners Paul Belval and Alex Judd offer a recap of the 2020 trends in project finance and a helpful breakdown of trends to come in 2021. The article, "Project Finance Trends, Challenges, and Opportunities in 2021," appears in the online publication for the American College of Investment Counsel.

Belval and Judd discuss notable technology trends in 2021 and beyond such as offshore wind, utility-scale solar, energy storage and green hydrogen; and note key challenges and opportunities involving such trends. Read the full article here.
