The CPSIA: One (Difficult) Year Later

Boston partner Jonathan Handler makes the argument that although the Consumer Product Safety Improvement Act of 2008 might have been well intentioned, its implementation has been a logistical nightmare. According to the Boston attorneys, that's because it does not provide the Consumer Product Safety Commission with the resources to enforce the law. Nor does it give sufficient forethought to its implications for affected businesses.

The article, which is part one of a two-part article, can be viewed at *Law Journal Newsletters* (subscription required).
