Day Pitney Hosts 2025 WWT Retreat in Stamford

Day Pitney Partners Andraya Brunau and Erin Healy hosted the firm's 2025 Women Working Together (WWT) Retreat in Stamford this week. The annual retreat provides an important opportunity for connection, open dialogue, and professional and personal development among attorneys at the firm. This year's program centered on the theme of "Grit and Growth Mindset" and featured an engaging keynote presentation by Milana Hogan, Ed.D. Dr. Hogan's insights emphasized the importance of resilience, adaptability, and continuous learning in advancing careers and achieving long-term success.

Day Pitney remains dedicated to creating spaces where attorneys can collaborate, share experiences, and build skills to further their professional development and leadership within the firm and the broader legal community.
