### OVERVIEW

Drew Levinson works with clients on real estate and environmental matters. He works through complex technical issues that involve multiple disciplines, which often arise in the environmental context. Drew works hard to establish an open line of communication with each client. He recognizes the importance and impact of their legal issues and handles them with a high level of care.

Drew served as a law clerk at the U.S Department of Justice's Environment and Natural Resources Division, Environmental Defense Section, and as a summer intern at the U.S. Environmental Protection Agency's Office of Enforcement and Compliance Assurance in its Office of Criminal Enforcement, Forensics, and Training, Legal Counsel Division and Office of Civil Enforcement, Waste & Chemical Enforcement Division. Through his internships, he had the opportunity to work on the early stages of major spill litigation and contribute to the ongoing formation of pesticide regulations. He was fascinated by the interplay of science and law.
